## SALES BULLETIN

**TOPIC:** ANNOUNCING THE HD SERIES UNIVERSAL BODY LOCK (U-Lock)

**TO:** ALL SWAPLOADER DISTRIBUTORS

Last year, SwapLoader announced the release of our 100 series universal body lock for our 100 series hoists. Today we are excited to announce the release of our HD series universal body lock that is designed for our SL-520, SL-518 and SL-650 hoists. The U-Lock is designed to allow for the conversion of competitive hook lift users to SwapLoader.

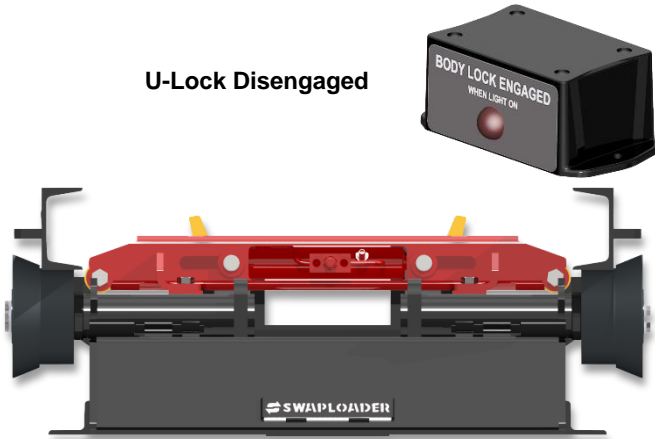

-  Designed to secure bodies/containers that are not built to SwapLoader specifications
-  Designed for bodies with 6" & 8" long sill heights (6" is standard)
-  U-Lock hydraulic cylinder has a built-in counterbalance valve
-  Includes an in-cab indicator light to notify driver that the U-Lock is engaged
-  Simple to use; can engage in partially extended jib position as long as the mast lock is engaged
-  Can be used with either pneumatic controls or manual controls
-  Bolt on design
-  Patent pending

U-Lock Disengaged

U-Lock Engaged

The SwapLoader HD series U-Lock will be an excellent addition to our universal body lock product line that makes it easier for customers to use their existing bodies on the SwapLoader hoist with less concern over body/hoist compatibility.

Contact your SwapLoader Regional Sales Manager or visit the SwapLoader website at [www.swaploader.com](http://www.swaploader.com) for further information.
